RE: The abandonment of the Busselton Community Centre - The People Place

I am member of Busselton community and support the work of The People Place Busselton and their community programs. The People Place offers programs and support for many community projects and their work with post natal issues, pre-school children, new citizens, the environment, health, education and all manner of community concerns is invaluable.

The abandonment of funding for The People Place will mean our City of in excess of 40,000 people will be without our community centre, which has proved itself as an asset to our whole community. This a truly disgraceful decision

To expect our community to travel to remote community centres which have nothing in common with our needs is both unnecessary and demonstrates a lack of careful attention by your government. The very idea is proprosperous.

We urge the Premier to intervene in this matter and apply the principles of common sense.

Yours sincerely
